

chenille

Technically advanced upholstery fabrics made of chenille fibres consisted of two simple twisted-together threads, between which are another cut fibres. Owing to that - fabric has a structure similar to that of velour or plush. A typical feature of the chenille - is an irregularity of upper structure, tiny irregular clearances, and downiness.

Corduroy is a fabric made with ribs. That fabric consists of three separate yarns woven together. The two primary yarns create a plain or a twill weave, and the third yarn intersperses into this weave in the filling direction, forming floats that pass over at least four warp yarns.

STANDARD

polyester 48%, acrylic 35%, wool 9%, viscose 8%

FLAME RETARDANT (FR)

polyester 47%, acrylic 36%, wool 9%, viscose 8%
