

chenille

Technically advanced upholstery fabrics made of chenille fibres consisted of two simple twisted-together threads, between which are another cut fibres. Owing to that - fabric has a structure similar to that of velour or plush. A typical feature of the chenille - is an irregularity of upper structure, tiny irregular clearances, and downiness.

It is a pile fabric and will flatten as a characteristic. For optimal appearance retention, regular light vacuuming or brushing with a soft brush is necessary.

COMPOSITION

cotton 53%, acrylic 47%

standard	version	flame retardant (FR)
643	weight (g/m ²)	643
25 000	martindale abrasion resistance EN ISO 12947-2	25 000
4	martindale pilling resistance EN ISO 12947-2 (afetr 2000 rubs)	4
5	colour fastness to light EN ISO 12947-2	5
