

chenille

Technically advanced upholstery fabrics made of chenille fibres consisted of two simple twisted-together threads, between which are another cut fibres. Owing to that - fabric has a structure similar to that of velour or plush. A typical feature of the chenille - is an irregularity of upper structure, tiny irregular clearances, and downiness.

It is a pile fabric and will flatten as a characteristic. For optimal appearance retention, regular light vacuuming or brushing with a soft brush is necessary.

STANDARD

polyester 73%, modacrylic 19%, cotton 8%

FLAME RETARDANT (FR)

polyester 73%, modacrylic 19%, cotton 8%

The fabric without FR back coating.

Fabric you can clean with just water.

Enjoy the everyday comfort provided by Aquaclean® Technology. Now you can get rid of small stains such as wine, coffee and food without having to wash with soap or detergent. Aquaclean® Technology is so effective that even stains from most marker pens comes off with just water!

Regular maintenance instructions.

For normal sofa maintenance we recommend that you vacuum the entire surface area regularly. You can use a normal home vacuum cleaner with a brush fitting.

*Washable according to graphic instruction

Easy to clean an easy way to remove a stain - suffice rub with a damp cloth and soapy water.

Eco friendly all materials are biodegradable, recyclable. All waste are recycled. Energy and water consumption are minimised. No toxic products during production.

Safe front protects against viruses and bacteria.

Water cleaning in three simple steps:

Remove any excess residue on the upholstery by careful scraping of the stain surface. (Make sure not to use a sharp object to prevent ripping the fabric).

Apply water over the stain, either directly or using a damp cloth. Wait a few seconds.

Press down over the stain with a damp cloth and rub gently over the fabric in circular movements. If the stain does not come off completely, repeat the process as required.
